

Scientific Conference on:
***"Statistics and the Assessment, Control and Scenarios of Risks.
 Applications to Food, Social and Health, Economic and
 Environmental Fields"***

**'G. D'Annunzio' University of Chieti and Pescara
 (12 – 14 September 2018)**

CALL FOR PAPERS

+

The ASA – Association for Applied Statistics and the 'G. D'Annunzio' University of Chieti and Pescara in partnership with:

- AICQ-CN – The Italian Association for Quality Culture (north and centre of Italy)
- AISS – The Italian Academy for Six Sigma
- ASSIRM – The Italian Association for Marketing, Social and Opinion Research
- SIS – The Italian Society of Statistics

organise in Pescara a scientific conference aimed at promoting applications and new statistical techniques and models suitable for food, social and health, economic and environmental risk analyses.

The conference will last two days and a half. Scientific reports at the conference will be partly invited by the Scientific Committee and partly contributed by participants. Also a round-table and participated experiments for both the sensorial evaluation of food and wines and the convergence of opinions will be held.

At each invited session two basic speeches will open the discussion, one of which will be held by an academic and the other by an expert from a company or an institution currently using statistics. This juxtaposition is aimed at favouring a better understanding between the academia and the production world.

This message is devoted to solicit contributed papers.

Contributed papers are welcome. Concerned scholars are invited to submit to the Scientific Committee an abstract preferably in English of no more than 4,000 characters, title, authors' name,
